

SevargTM

SDE Electric die cutting machines

- Cutting via 240V 50Hz motor.
- Interchangeable punches and dies can be ordered.
- Hardened steel means thousands of cuts.
- Samples can be cut at our factory.

SDE series machines cut Teslin™ or PVC every time with a clean edge.

Robust construction to cut plastic credit cards, laminated I-D cards, computer cards, luggage tags, coaster mats and many more. The SDE electrically powered model gives effortless cutting via a 240V 50Hz motor and wrap spring clutch release. Operated by an air foot switch.

The cutting components (punch and die) are made from hardened and ground tool steel offering many thousands of cuts without the need to re-sharpen.

Interchangeable punches and dies can be ordered for these machines.

To help choose the correct machine, we can cut samples at our factory showroom from your material.

Guide bars can be set to your specific width of strip.

All cutters come with a 12 month warranty.

Sevarg cutters are manufactured in Great Britain by Clamcleats Limited. For more information about this and our other range of cutters please contact:-
